Living in Madrid

## ESTIMATED COST OF LIVING IN MADRID

If you plan to live in an apartment, we always recommend visiting the apartment in person before signing a contract. It is also important not to make any kind of payment to the landlord before signing a contract, to avoid scams. Landlords usually ask for a deposit that can be equal to the cost of one to three months' rent. Also note that additional expenses such as electricity, water, gas, WiFi, etc. are usually not included in the rent.
